PURPOSE OF WOMAN'S LEAGUE

The Formation of the Woman's League to Further the Interests of Gettysburg College. Resolutions of Board.

During the year 1908 three leagues of women were formed on the territory of Pennsylvania College. These leagues undertook by the gathering of small sums of money among themselves the support of a student secretary in the service of the college. They were located at Pittsburgh, Harrisburg and at York. They each adopted a simple constitution, of a similar character, yet not in all respects uniform. At about the same time, there was organized in Gettysburg The Pennsylvania College Aid Society. For several years the ladies of the Faculties of the College and the Theological Seminary, together with the ladies of the town, had served the annual alumni collation, and they found it convenient for purely business purposes to form an association. These societies are at the present time carrying forward the work undertaken in a most successful manner.

At my inauguration as President of Pennsylvania College I expressed my gratification with the work of all these societies and believe now other leagues should be formed so that the work can be extended and expanded. The matter was brought to the attention of the Board of Trustees of the College at its recent meeting in December, and was acted upon, the following resolution being adopted:

WHEREAS the work done by the Gettysburg Woman's Leagues in supporting the Student Secretary of the College Y. M. C. A., and furnishing and serving the Commencement and Inauguration Collations to the Alumni has resulted in great good to Pennsylvania College, be it therefore,

RESOLVED that the sincere thanks of the Board of Trustees be tendered to the various Gettysburg Woman's Leagues, and be it

RESOLVED that the plans for the extension of their work for the benefit of Pennsylvania College and the organization of similar new leagues in new localities meet with the hearty approval of the Board of Trustees, and be it further

RESOLVED that a copy of these resolutions be sent to each one of the Gettysburg Woman's Leagues.

Immediately after this action of the Board of Trustees, delegates were appointed from the three Woman's Leagues, and from the Pennsylvania College Aid Society forming a committee charged with the consideration of the organization of a Woman's General League of Pennsylvania College. Mrs. Mary G. Stuckenberg who had organized the existing leagues, was again called to the field as a member of this Committee. The delegates were: Mrs. C. F. Stifel and Mrs. Kinch, of Pittsburgh; Mrs. W. T. Herman, Mrs. Rue and Mrs. John F. Dapp, of Harrisburg; Mrs. L. C. Bell, Mrs. Robert E. Clare, Miss Mary Anstadt and Miss Jennie Owen, of York; Mrs. G. D. Stahley and Mrs. J. W. Richard, of Gettysburg.

On the 18th day of January this committee went into session at Gettysburg, Pa., passed a resolution to organize a Woman's General League and made uniform the Constitution and By-Laws of the sub-leagues. The report of this committee was then sent back to the sub-leagues for further action. The committee also appointed provisional officers and the members of standing committees to act until such time as a general convention should be called for the purpose of giving final form to the organization.

The proposed constitution for the General League is a simple working constitution with few extraordinary features. It provides for the payment of membership dues in the sub-leagues of not less than one dollar annually. All members of sub-leagues are associate members of the General League; but individual membership may be obtained in the General League by the payment of a sum of money, not less than five dollars, annually. Life membership in the General League may be had by the payment of one thousand dollars, which shall be used as an endowment; and twenty five thousand dollars shall give name to a memorial chair or memorial building and fix the use of the endowment with the concurrence of the Board of Trustees of the College. A literature committee shall have charge of the circulation of literature in the interest of the College or of an educational character. An executive committee, which shall meet quarterly, has charge of the business of the leagues from the meeting of one convention of the leagues to another. It is provided that this convention shall assemble annually, and shall be formed of delegates from the various leagues and, from the standing committees. The names of the provisional officers and the

COUNTY ROADS NEED REPAIR

Townships in Lower End of County not to be Outdone in Making Macadam Roads. Competition will Mean Better Roads in County.

The good roads question is not entirely a dead issue at least not in Adams county. Many of the people living in rural districts are becoming dissatisfied with the bad condition of some of the roads. Every day there is a clamor of new voices and the farmers are beginning to see that it is not only the automobile owner who is benefitted by improved roads, but the farmer as well.

Gettysburg would certainly feel the effects of at least one good road leading out of the town. Many touring parties eliminate a trip to the Battlefield town in laying out an automobile tour. The only reason attributed to this elimination is the fact that in planning a trip, touring parties pick out the good roads and will drive many miles off their course to avoid bad roads. Approaching Gettysburg from any direction the last ten miles of road before entering our town are as bad as any in the state approaching towns this size.

Butler and Conewago townships are to be commended on the rapid strides they have made in the last two years. They are taking advantage of the allowance offered by the state in repairing roads. This plan of township co-operation would soon place the highways in good condition and should be indorsed by some of the delinquents.

HAVE TO TAKE OATH

William Coleman Freeman, chairman of the committee on banking in the Legislature, will introduce a bill in the House today which provides for the oath to be taken by a director of a trust company upon his election to the board.

The director under the oath proposed deposes that he is possessed of at least ten shares of unhyphenated stock of the corporation, which must stand in his name on the books of the corporation. It must be taken before the director assumes the duties of his office and must be filed immediately with the State Banking Commissioner.

The bill was drafted by Mr. Freeman after consulting with a number of trust company officials in Pittsburgh and Philadelphia, who have approved of it and will urge its passage. State Banking Commissioner Smith has assured Mr. Freeman the department is in need of such a measure and will lend his support.

"At present such an oath is not required of directors of trust companies. Directors of state banks are required to take such an oath. This bill will be presented to apply to directors of trust companies with the idea of better safeguarding the interests of the public. Many officials of trust companies whom I have consulted heartily approve of the measure."

BENTZ-ZIEGLER

Lloyd L. Bentz, one of Dillsburg's most prominent young business men, was united in marriage to Miss Jessie Ziegler, of East Berlin, January 26. The ceremony was performed by Rev. I. W. WOLF HILL FIRE A MYSTERY

The Burning of the Thomas Hermitage on Sunday Night Remains Unexplained. Theory of Incendiarism is Advanced by People of Vicinity.

The real cause of the fire, that was seen by many of our town people on Sunday night, has aroused much speculation of thought and seems as yet to be clothed in a veil of mystery.

It will be recalled that several years ago Herr Thomas, better known as the "Hermit of Wolf Hill," owned a little property just beyond Rock Creek, on the West slope of Wolf Hill. Mr. Thomas was a frequent visitor in Gettysburg and was often seen on our streets with his little two wheeled cart, drawn by his faithful dog, gathering rags and gum shoes which he marketed and by this means provided sufficient capital to meet his scanty requirements. On Sundays Mr. Thomas received many visitors at his Hermitage and delighted in talking over his possession of the estate he had acquired by hard labor. It consisted of about a half acre of ground and the Hermitage.

About a year ago the Hermit died leaving a will by which he devised his estate to the county. The property was sold and remained unoccupied for some time, then it was leased by John Hart who occupied it at intervals up until the time it was burned.

Since the death of the Hermit some of the people living in that neighborhood have reported strange happenings about the old place. The tramps who have for years frequented their rendezvous along Rock Creek near McAllister's Mill, took up quarters at the Hermitage, but it did not last long. They are said to have heard funny noises and after several strange experiences, vacated the place.

Some of the Wolf Hill inhabitants report nightly visits of the place by a specter supposed to be the disembodied spirit of the Hermit.

Many fony stories are told about the old place, but no one seems to know the real cause of the fire. One thing is certain it burned and there was no one in the place when it burned. All that can be recorded of the disaster might be,

"A little lowly Hermitage it was,
Down in a dale, hard by a forest side,

LOCOMOTIVE DIVES INTO MUDDY FIELD

The large Western Maryland freight locomotive number 607, used on the Gettysburg branch to haul coal and other heavy freight ran off the end of an elevated switch, near Highfield, Saturday evening. The locomotive was eastbound and pulled a long train of loaded freight cars.

The engineman lost control of the locomotive and when he saw that an accident was inevitable, threw back the throttle and he and his fireman jumped safely. None of the members of the crew was injured.

The locomotive pitched over the high embankment and stuck its pilot deep into the soft mud. The tender was dragged off the track and one car was derailed. The wrecking crew immediately went to work but it was 5 o'clock Sunday morning before the wreckage was cleared away.

As the accident happened on the Gettysburg branch and not on the main line, traffic between Baltimore and the west was not delayed.

PAINFUL ACCIDENT

W. J. Stansbury met with a painful accident on Monday afternoon while operating a small circular saw at the Reaser Furniture factory. Mr. Stansbury was sawing light finishing lumber and in some way got his right hand in contact with the saw. The thumb and three fingers were almost severed and it is feared that one finger may have to be amputated. The machine is operated by a motor and the mishap seems to have been purely accidental.

FUNERAL NOTICE

The funeral notice of Edward McCleary was incorrectly stated in yesterday's paper. Services will be held on Wednesday afternoon at 1 o'clock at his residence on York street. Rev. DEER COME FROM FORREST TO FEED

Hard put to, for some time, to find food the on snow filled mountains, deer are beginning to come out of the forests in large numbers to feast on the wheat fields that are just losing their snow covering and to make up for the partial famine of the early and cold winter.

Thursday, Washington Patterson saw a buck and two does in the wheat field of his brother, near the Mentzer road crossing. The buck was a big fellow with tremendous horns and is supposed to have been the black buck which has lived in that section for years and always evaded the hunters. When Patterson called out, the animals bounded away into the forest.

The Glen Furney school children saw two does in Andrew Friedley's wheat field, while on their way home from school, Thursday evening. The animals disappeared in the woods when the children approached them.

ARCHBISHOP RYAN.
Noted Philadelphia Catholic Church Leader Seriously Ill.

ARCHBISHOP RYAN RALLIES SLIGHTLY

But Physicians Fear He May Die Any Moment.

Philadelphia, Jan. 31.—The condition of the Most Rev. Patrick John Ryan, archbishop of Philadelphia, is extremely critical and he may pass away at any moment.

The two specialists who are attending him said:

"Archbishop Ryan is slightly improved, but we fear that it is only temporary. He is even a little stronger, although he suffered the worst spell of heart depression he has yet had. We thought he was gone, but he rallied and is now much stronger. He may drop off at any time. His wonderful will power and vitality and his gentle resignation are doing much for him."

As the heart action became weaker and weaker, he would gasp for breath and then he would be resuscitated by the nurses with oxygen. When he was relieved his keen, kindly eyes would light up with cheerful resignation and he would show the greatest solicitude for the comfort of the priests and relatives who were gathered around his bedside.

His worst spell occurred early in the morning and for a time it seemed as if he would not respond to the treatment of the nurses. The members of the household were called and knelt in prayer about the bed and the Litany was recited. Suddenly the archbishop relaxed, his eyes opened and he weakly smiled at the nurses standing over him. Then his eyes turned to the familiar faces who have known and loved him for so long, and he listened quietly to the prayers being recited in his behalf. At the end he smiled and said:

"Get up and go to your beds, for I am all right now. God bless you."

TIE PILE HID SLAIN MAN

Railroad Section Foreman's Body Is Found Along Track.

Wilkes-Barre, Pa., Jan. 31.—The mysterious disappearance of Joe Attello, a section foreman for the Lehigh Valley railroad, several months ago, was solved when his hacked body was discovered under a pile of ties near Bernice.

The man's head was out and a score of wounds were found on his body. Detectives for the railroad company were notified, and they are investigating.

It is thought that Attello was murdered by several men he had charged and his body hidden under the ties. But for the fact that a gang was piling the ties on a truck the body would not have been found and the murder might not have been revealed.

ACTION ON TARIFF STIRS CONGRESS

Special Rule in House to Consider Commission Bill.

CANADA PACT IN SENATE

After a Lively Discussion Reciprocity Agreement Was Referred to Committee on Foreign Relations.

Washington, Jan. 31.—Things moved rapidly in congress with regard to President Taft's tariff plans.

While the senate, after a lively discussion, decided to refer the proposed reciprocity pact with Canada to the committee on foreign relations, the house received a special rule to provide for the immediate consideration of the bill to create a permanent tariff commission.

The special rule was reported in the house by Representative Dalzell, of Pennsylvania, and its adoption will mean a speedy vote as to whether this part of Mr. Taft's plans for legislation before the Democrats come into power is to go through, at least so far as the house is concerned.

The discussion in the senate was the first airing there of the president's program for trade reciprocity with Canada. The discussion arose in connection with a motion of Senator Cullom, of Illinois, to change the reference of the bill from the committee on finance to the committee on foreign relations.

Senator Heyburn, of Idaho, contended that as the agreement dealt with the tariff, the foreign relations committee could have no jurisdiction. He argued that the executive department had transcended its authority in entering into the compact with Canada.

Heyburn Opposes Reciprocity.

"The senate," Mr. Heyburn said, "does not recognize the right to make a tariff by agreement. I know of no provision in the constitution of the United States which provides that the legislation affecting the revenue should originate in the executive department."

Senator Bailey, of Texas, asserted that, if the Canadian compact was a mere agreement, the president had been without authority to act, whereas if it was a treaty, he had such authority. He regarded it as a treaty and was willing that it should go to the committee on foreign relations.

Ultimately Mr. Cullom's motion prevailed. It is understood after the foreign relations committee has satisfied itself that the agreement does not interfere with existing treaties it will be brought back and again referred to the committee on finance.

Senator Stone, of Missouri, announced his unqualified support of the Canadian reciprocity pact, and his conviction that, whatever the Republicans might do, the Democrats should give the agreement their sanction.

The Missouri senator had been engaged in an address in opposition to the ocean mail subsidy bill. Declaring that the bill could not pass, and saying that the senate should turn its consideration to "measures of more substantial merit," he proceeded:

"If we would do something of real moment we might take up the important reciprocity agreement between the United States and Canada which the president laid before congress last Thursday, and press it to a conclusion without delay."

The senator maintained that the agreement would prove of tremendous importance not only to this country, but ultimately to the entire hemisphere.

Rain Washed Plaster Draperies From Adam and Eve.

Harrisburg, Pa., Jan. 31.—The rain that swept over central Pennsylvania on Sunday night incidentally washed the drapery of plaster of paris from the heroic figures of Barnard's statues of Adam and Eve, now in place in front of the main entrance to the capitol building.

Adam and Eve were as Barnard meant they should be. If real, they would have caught cold, but, being marble, they merely stood forth in all their primitive splendor. Harrisburg, in spots, was shocked, but there is no loud outcry. Clerks and business men walked blocks out of their way to verify the report that Adam and Eve had been divested of their plaster coverings. Then an attendant began to redrape the statues.

Earthquake Rocks Ogdensburg.

Ogdensburg, N. Y., Jan. 31.—A number of people here were awakened Sunday morning by a rocking sensation that stirred beds and tables and rattled dishes in the pantries. Although the disturbance was not generally noticed, because the city was wrapped in sleep, it is supposed that the movement was caused by an earthquake.

Honduran Capital Menaced by Rebels.

San Juan Del Sur, Nicaragua, Jan. 31.—General Duron, at the head of 900 revolutionists, has invaded the department of Choluteca, Honduras, and is preparing to march against Tegucigalpa, the capital. Another body of revolutionists is reported operating near Comayagua, about seventy-five miles east of the capital.

TAFT MCKINLEY'S LEGATEE

Proud to Bring Forth Reciprocity Treaty Proclaimed by Martyr.

Washington, Jan. 31.—President Taft in the presence of 300 members of the Ohio Society of Washington and their guests at a McKinley memorial dinner here, avowed himself the legatee of McKinley's policy of reciprocity expressed in the martyr president's last public speech at Buffalo.

"I am proud," exclaimed President Taft, "as a son of Ohio to bring forward for approval and effective action a measure carrying out the policy which he proclaimed and made his own at the acme of his great career."

Three justices of the supreme court, several senators and representatives in congress and many others prominent in public life heard and vigorously applauded the president's appeal for Canadian reciprocity.

The president responded to the toast "William McKinley."

To those who heard the president's speech the conclusion was inevitable that Mr. Taft had squarely up to his party's representatives in congress the responsibility in dealing with the Canadian reciprocity agreement of accepting or rejecting the last great public policy bequeathed to them by President McKinley. President Taft's speech was the feature of the dinner of the Ohio Society of Washington.

SHOT GRAPPLING WITH WIFE

Husband Gets Bullet He Intended For His Spouse.

Erie, Pa., Jan. 31.—Following a family quarrel, Louis Vogt was shot and instantly killed at his home near Union City. His son Louis, aged fifteen, witnessed the crime.

The quarrel had been continued for some time, when the husband finally drew his revolver and threatened to shoot his wife. She then grappled with him, and the revolver was discharged and the husband fell dead. Mrs. Vogt was held for trial.

TIDAL WAVE DROWNS 300 IN PHILIPPINES

Water Sweeps Ashore After Eruption of Volcano.

Manila, Jan. 31.—Three hundred natives were overwhelmed and drowned by the tidal wave which followed the eruption of the volcano Taal, or were burned to death, according to advices received here.

An American school teacher, who has laboriously traversed the west shore of Lake Taal, telegraphs that five small villages were destroyed by the tidal wave and that not less than 300 persons have been killed in that vicinity. Many were burned in the fires started by the molten masses.

A constabulary relief detachment reports that twelve persons were drowned and one killed by lightning at Talisay and that three persons were drowned at Lemery. These two villages and the little town of Taal seem to have suffered most.

The government is hurrying relief trains to the scene.

All the towns within a radius of twenty miles suffered damage from the rain of mud and stones, which still continues. The native population in all directions are abandoning their villages and fleeing to the hills in terror.

Mount Taal rises in the center of Lake Taal, a body of water not more than fifteen miles in circumference. It is thirty-four miles from Manila, from which the dense clouds of smoke rising from the crater are plainly visible.

The observatory authorities believe that Manila is in no danger, but there is some alarm among the natives.

Mrs. Carrie Nation Dying.

Eureka Springs, Ark., Jan. 31.—Mrs. Carrie Nation, who became known throughout the country several years ago by reason of her fondness for smashing saloons, is reported to be sinking rapidly and her death is said to be imminent.

Radley Sells Monoplane.

San Jose, Cal., Jan. 31.—James Radley, the English aviator, has sold his monoplane here and will soon sail for England from New York.

During a season when typhoid fever seems to be more prevalent than for many years it is worth while repeating some of the precautions given in these notes some months ago. The chief sources of infection are through food and liquids taken into the system, and of these the most prolific are drinking water, milk and oysters which come from beds where city sewage is dumped. The only way to be on the safe side is to boil all water and milk used and to thoroughly cook oysters and any other article of food that might contain the germs. Another precaution of equal importance where there is a typhoid patient in the house is the use of the utmost care in disinfecting all of the patient's sputa, excreta and urine. These are not pleasant things to talk about, but many a life has been lost from this scourge through lack of proper attention to these simple precautions.

FALLING SIGN KILLS FOUR

Pedestrians in Philadelphia Are Crushed to Death.

EIGHT OTHERS INJURED

Torn Loose by Wind, Sign Crashed Down Without Warning Upon Heads of People on Crowded Street.

Philadelphia, Jan. 31.—Four persons were crushed to death and eight others injured by a falling sign at 934 Market street.

The sign, fourteen feet high and extending twenty feet along the width of the top of the four-story building, was probably loosened by the wind, and it crashed down without warning upon the heads of scores of pedestrians in the throngs along that thoroughfare.

Men and women were caught beneath the falling mass and crushed. Persons who escaped were quick to form a rescue squad and freed the victims from the debris. Passing motor cars and hurriedly summoned ambulances carried the dead and injured to the Jefferson hospital.

The building is occupied by the Rexford Jewelry company. They have only recently occupied the structure, and the sign bore the name of a previous occupant. This sign was braced against the cornice. The Rexford store is flanked on each side by higher structures, and it is supposed that the high wind, sweeping down between the higher buildings, caught the sign and tore it from its fastenings.

Those killed were: John F. Ellis, Henry Hahn, Mrs. Emma A. Vinning and Ruth Seybold, a seventeen-year-old girl.

Many women fainted and were revived at nearby drug stores, while others ran screaming into other business houses, in the belief that the entire building had collapsed.

A particularly heavy gust of wind tore the massive sheet steel and timbered sign from its fastenings, sixty feet above the passing throngs, and whirled it over the sidewalk.

The noise of the wind prevented the sound of the timbers and bolts being torn away from reaching the ears of the passers-by. One end of the sign was heavier than the other, and this caused the big structure to whirl, the heavy end striking the street first with a loud crash. The sign struck the middle of the pavement and fell out toward the curb.

So dense had been the throngs on the sidewalk that many persons had been forced to the edge of the curb and into the street. To the fact that the sign fell so far out from the building line fully half a hundred people owe their escape from injury or death.

The sign was an old one, and Building Inspector Hart said the timbers and fastenings were rotted by exposure to the weather. He said that he was surprised that it held together as long as it did.

Those killed were crushed beneath the heavy end of the sign, three dying instantly. Mrs. Vinning died while being taken to a hospital.

FEAR VETO OF PENSION BILL

Senate Committee In Quandary as to What to Do With Measure.

Washington, Jan. 31.—The question whether President Taft would veto a general service pension bill complicated the situation in the senate committee when this proposed legislation was considered.

There are two measures before the committee, the Sulloway bill, which passed the house and which would add about \$45,000,000 annually to the pension rolls, and the McCumber bill, which would add about \$15,000,000. One of these measures may be reported next week.

Speaking in favor of the Sulloway bill were Representatives Sulloway, Anderson, of Ohio, and Langley, of Kentucky; General Eli Torrence, of Minneapolis; John R. King, of Baltimore, past commander-in-chief of the G. A. R.; Colonel John McElroy, of Washington, and General George H. Slaybaugh, of the treasury department.

Some senators went so far as to intimate that they "had inside knowledge" that, if passed, the bill would be vetoed.

Convicted as White Slaver.

Scranton, Pa., Jan. 31.—William Snyder, a former Philadelphia pugilist and accused white slaver, was tried on a serious charge involving Ethel Hudson, a fifteen-year-old girl, and found guilty. The jury simply walked out of the box to the jury room, signed the verdict and returned to the court room.

\$20,000 Painting Stolen.

Brussels, Jan. 31.—The Etiole Belge says the painting of the Virgin and Infant Christ, attributed to Quentin Matsys, has been stolen from a house in Antwerp. It is valued at \$20,000.

Admiral Matthews Dies.

Cambridge, Mass., Jan. 31.—Rear Admiral Edmund Orville Matthews, U. S. N., retired, died at his home here. He was born in Baltimore in 1836.

WANTS PRESIDENT TO PAY FOR PERMITS IN MARYLAND.

Baltimore, Jan. 31.—John K. George, state motor vehicle commissioner, refused to give President Taft credit for \$42.

"He's president, I know," said Mr. George, "but all automobilists look alike to me. The law exempts vehicles owned by the state of Maryland and the local government in Maryland, but nothing is said about the United States."

President Taft, through his secretary, Charles D. Norton, has sent to Commissioner George application for the licenses of four motor cars and three chauffeurs. Mr. Norton sent the application on the regular blanks but inclosed no remittance. The cars are said to be government owned, and Mr. George thinks that the president expects to get the licenses without paying.

So the commissioner directed that a letter be sent the president's secretary, notifying him that the licenses will be forwarded as soon as the remittance is received. A bill was inclosed with the letter. Thus far there has been no response.

"I might trust the president of the United States for the amount," said Mr. George, "but he expects to get the licenses for nothing. So I'll wait till I get the cash."

"Furthermore, I have written to the sheriff of Montgomery county and told him to let no man without a license escape. He let the vice president off, but I don't want that to happen again. Princes, potentates and vice presidents all look alike to me in this automobile business."

SWEARS TO LOVE ON BIBLE

Husband Took Odd Ways to Make His Wife Unhappy.

Harrisburg, Pa., Jan. 31.—Judges in the divorce court were surprised when Mrs. Emma Zerbe, who asked for a divorce from her husband, alleging cruel and barbarous treatment, declared that Zerbe used to make her get out of bed at midnight and, standing barefooted on a Bible, swear that she loved him only.

The case has attracted much attention because of the statements made by the wife, who declared Zerbe had taken singular ways to make her life unhappy.

Trust Decisions Soon.

Washington, Jan. 31.—The supreme court of the United States took a recess until Feb. 20. It is believed that the opinion of the court in one or more of the big corporation cases, including the dissolution suits against the Standard Oil company, the American Tobacco organization and the corporation tax cases may be announced when the court reconvenes.

Bed Warmer Kills Woman.

Lebanon, Ky., Jan. 31.—A hot rock, used in warming the bed, set fire to her garments and caused the death of Mrs. Mary Carlisle here. She was the widow of Colonel John B. Carlisle.

PETER C. HAINS, JR.

Slayer of W. E. Annis Resigns Commission in Army.

RESIGNS AS ARMY OFFICER

Captain Hains, Who Shot W. E. Annis In 1909, Gives Up Commission.

Washington, Jan. 31.—President Taft has accepted the resignation from the army of Captain Peter C. Hains, Jr., coast artillery corps, effective Jan. 28.

Captain Hains is now serving a nine years' penitentiary sentence for the murder of William E. Annis at Bayridge, N. Y., in 1909.

Captain Hains shot and killed Annis in the belief that the man had conducted himself improperly with Mrs. Hains. The shooting took place near the Bayridge Yacht club as Annis was about to row out to his yacht.

The sentencing of Captain Hains did not affect his status as an army officer. He was until Monday on the records as "detained by civil authorities," but as he was not on duty did not receive pay.

HOLDS UP TAFT'S AUTO LICENSE

Wants President to Pay For Permits in Maryland.

TO ELECT SENATORS AGAIN

West Virginia Governor Won't Sign Chilton and Watson Credentials.

Charleston, W. Va., Jan. 31.—Peace having been restored in the West Virginia legislature, the senate and house met to begin their delayed task of electing two United States senators, enacting laws, including "wet and dry" legislation and listening to the governor's message.

Governor Glascock refused to sign the senatorial commissions of William E. Chilton and Clarence W. Watson until the Republicans voted on the senatorships.

SUES ON UNUSUAL CHARGES

Baker Sues Rival For Saying He Had Consumption.

Harrisburg, Pa., Jan. 31.—Louis Weintrub, a resident of Steelton, has entered suit against B. Rashinsky for \$5000, on the charge that the defendant had injured his business by declaring that he had consumption.

Both men are bakers, and there is keen rivalry between them. The suit is the most unusual brought in many months, such a statement never having been made the basis of an action for damages.

To Protect Mount Vernon.

Washington, Jan. 31.—The house of representatives voted, 112 to 42, to restrain the District of Columbia from erecting a reformatory or any other penal institution within a radius of ten miles of Mount Vernon, the tomb of Washington, either on the Virginia or Maryland side of the Potomac.

Dynamite Blows Up Machinery.

—Erie, Pa., Jan. 31.—A coal trestle with machinery, designed to load and unload vessels at the rate of a car a minute, was blown up by nitro-glycerine and a huge hole was torn in the side of the Mary C. Elphicke, a steel ore boat, anchored 150 feet away.

Batavia (N. Y.) Bank Closes.

Batavia, N. Y., Jan. 31.—The Farmers' bank suspended following a run of several days. The run, it is said, was caused by the death of President Loomis, of the Loomis bank in Attica.

AVIATOR DROPS INTO OCEAN

Forced to Descend When Ten Miles From Havana.

WAS PICKED UP UNHURT

J. A. D. McCurdy, Running Short of Oil, Gave Up Trip From Key West to Capital of Cuba.

Havana, Cuba, Jan. 31.—Within ten miles of the Cuban coast and only a short distance further from his goal, the Camp Columbia aviator field, J. A. D. McCurdy, the Canadian aviator, ran out of lubricating oil and was compelled to abandon a magnificent flight from Key West, Fla.

When he saw that he could not quite reach Havana, McCurdy alighted safely on the calm sea, and the pontoons with which it was equipped floated the aeroplane until the United States torpedo boat destroyer Paulding, speeding along in its wake, had overtaken the aerial craft. McCurdy and his biplane were taken on board, neither the worse for the mishap.

At first it was thought that the aviator could make a new start from the deck of the destroyer, but this proved impracticable, and after considerable delay the Paulding brought both machine and aviator to Havana. The other boats that marked the course across the strait had in the meantime joined the Paulding and the fleet came in together.

Covered Eighty Miles.

McCurdy had covered approximately eighty miles when he was obliged to descend, and though he failed to meet the requirements of the competition, he accomplished a feat unprecedented in cross-sea flying.

Compared with the twenty-mile flights across the English channel, the performance stands out as far and away more remarkable. But for a slip in the amount of supplies it is not to be doubted that the trip would have been successful.

Great disappointment was felt by the thousands who had assembled to catch a glimpse of the bird-man. The aviation meeting opened Sunday, but the flight of McCurdy across the Florida strait was looked forward to as the big feature to start the meet under way and give a new impetus to the art of flying in Cuba.

The Paulding was about thirty miles off shore, and when she reported that the Belmont racer had passed overhead going strong, thousands of pairs of eyes were strained seaward. Then there was a prolonged interval, during which there was no sight of or word from the aviator.

The crowd became oppressed with a premonition that an accident had occurred and there was a feeling of relief, mingled with the disappointment at the receipt of the report that he had dropped into the water, but was picked up unharmed.

The flight was for a prize of \$5000, offered by the Havana Post and \$3000 appropriated by the Havana city council.

TO ELECT SENATORS AGAIN

West Virginia Governor Won't Sign Chilton and Watson Credentials.

Charleston, W. Va., Jan. 31.—Peace having been restored in the West Virginia legislature, the senate and house met to begin their delayed task of electing two United States senators, enacting laws, including "wet and dry" legislation and listening to the governor's message.

Governor Glascock refused to sign the senatorial commissions of William E. Chilton and Clarence W. Watson until the Republicans voted on the senatorships.

SUES ON UNUSUAL CHARGES

Baker Sues Rival For Saying He Had Consumption.

Harrisburg, Pa., Jan. 31.—Louis Weintrub, a resident of Steelton, has entered suit against B. Rashinsky for \$5000, on the charge that the defendant had injured his business by declaring that he had consumption.

Both men are bakers, and there is keen rivalry between them. The suit is the most unusual brought in many months, such a statement never having been made the basis of an action for damages.

To Protect Mount Vernon.

Washington, Jan. 31.—The house of representatives voted, 112 to 42, to restrain the District of Columbia from erecting a reformatory or any other penal institution within a radius of ten miles of Mount Vernon, the tomb of Washington, either on the Virginia or Maryland side of the Potomac.

Dynamite Blows Up Machinery.

—Erie, Pa., Jan. 31.—A coal trestle with machinery, designed to load and unload vessels at the rate of a car a minute, was blown up by nitro-glycerine and a huge hole was torn in the side of the Mary C. Elphicke, a steel ore boat, anchored 150 feet away.

Batavia (N. Y.) Bank Closes.

Batavia, N. Y., Jan. 31.—The Farmers' bank suspended following a run of several days. The run, it is said, was caused by the death of President Loomis, of the Loomis bank in Attica.

Ivory Soap appeals to rich and poor alike.

The millionaire's wife buys it because she knows there is nothing better at any price; the mechanic's wife, because she knows there is nothing so good at the same price.

In both cases, *Good Value* counts.

There is no "free" alkali in Ivory Soap. That is why it will not injure the finest fabric or the most delicate skin.

No More Gray Hair No More Dandruff No More Baldness

WYETH'S SAGE & SULPHUR HAIR REMEDY

We guarantee WYETH'S SAGE and SULPHUR HAIR REMEDY to remove dandruff, stop itching of the scalp, prevent the hair from falling out, promote the growth of the hair, and to restore faded and gray hair to natural color or refund the price.

A Wonderful Cure

My hair was getting quite gray and falling out rapidly, and I was troubled with a terrible itching of the scalp. My head was full of dandruff. I heard of your Sage and Sulphur for the hair. I got a bottle and used it, and almost at once was benefited by it. A few applications relieved the itching, my hair stopped falling out and gradually came back to its natural color. It is now a nice dark brown color, soft, clean and pliable.

Better Health

A Pleasing Sense of Health and Strength Renewed and of Ease and Comfort

follows the use of Syrup of Figs and Elixir of Senna, as it acts gently on the kidneys, liver and bowels, cleansing the system effectually, when constipated, or bilious, and dispels colds and headaches.

To get its beneficial effects, always buy the genuine, manufactured by the California Fig Syrup Co.

Gastronomic Surprises.

The old newspaper man standing along the curb reminded thuswise: "Ever know Scotty McLennon? I don't know why I should speak of him now, except that if he were here he would probably have with him a Scotch remark or two that might help to pass the time.

"Scotty used to work here on the old Report. I remember when he had

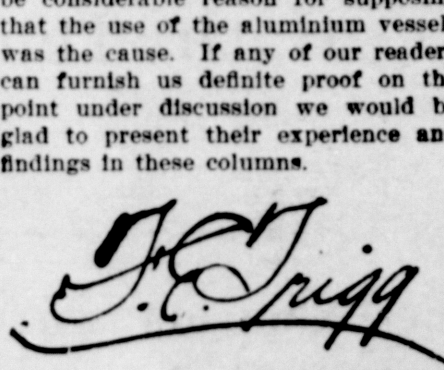

THE OLD NEWSPAPER MAN.

his first taste of caviare. He bit into it, spat it out and then said: "Gad, mon, but your blackberry jam is bitter!"

"Somewhat similar in viewpoint was his remark about horseradish. He took a mouthful and, with tears rolling down his cheeks, said: "That's hotter oatmeal than we have in Scotland!" - San Francisco Chronicle.

A lady reader of these notes living near Massillon, O., writes inquiring if there is any truth in the articles which have been published lately as to injurious effects from eating food cooked in aluminum vessels. While we have heard statements to this effect and articles charging such to be the case have been published, inquiry of medical men does not show that the claim that stomach trouble is due to the eating of foods cooked in aluminum vessels has been conclusively proved. We would suggest to our correspondent, however, if her family use aluminum utensils and some of them have stomach trouble seemingly as a result, that it might be a good idea to go back to iron and granite ware for a time and see if the disorders referred to disappear. Should they do so there would be considerable reason for supposing that the use of the aluminum vessels was the cause. If any of our readers can furnish us definite proof on the point under discussion we would be glad to present their experience and findings in these columns.

THROW OUT THE LINE

Give the Kidneys Help and Many Gettysburg People Will Be Happier.

"Throw Out the Line!" - The kidneys need help. They're overworked - can't get the poison filtered out of the blood. They're getting worse every minute. Will you help them?

Doan's Kidney Pills have brought thousands of kidney sufferers back from the verge of despair.

Mrs. Elizabeth Beiter, 1 Steinwehr Ave., Gettysburg, Pa., says: "I am just as willing to recommend Doan's Kidney Pills today as I was two years ago, when I publicly told of my experience with them. I was afflicted with kidney and bladder trouble and all my efforts for relief were unavailing. The kidney secretions also caused me much annoyance. Pains often shot across my body and my health was all run down. Hearing so much about Doan's Kidney Pills, I was led to get a box at the People's Drug Store and gave them a trial. They cured me and I have since enjoyed good health."

For sale by all dealers. Price 50 cents. Foster-McBarn Co., Buffalo, New York, sole agents for the United States.

Remember the name - Doan's - and take no other.

It has been asked why women have felt it incumbent upon themselves to form these leagues for the aid of the college. We will attempt to give some of the reasons for our organization in their order:

1st-The same general spirit has prompted the movement which, earlier, led to the forming of the Woman's Home and Foreign Missionary Society and which has caused men to enter into the Layman's Missionary movement and the Lutheran Brotherhood organization. This spirit might be more exactly defined as a desire to give intelligent and special aid in the building up of the church through its various agencies and institutions.

2nd-In this particular instance, we believe that this upbuilding may be assisted by gathering for the use of the college into one available sum the small amounts of money that women are able to give from their incomes or from their earnings. This would form a living endowment.

3d-Through the leagues, we hope to direct the giving of small bequests, gifts, which will finally form in their total a comfortable invested endowment.

4th-It is further our hope so to interest the women of our church in the college as to make them glad to bring to it their best and largest gifts, either as bequests or otherwise.

5th-Of value equal to the financial benefits to be derived from the formation of these leagues, will be, we hope, the more intimate contact of the college with its constituency through the home and the family. The life of the church and the home should and will, stand in better and more intelligent relation to the life and interests of our educational institutions through the mediating influences of the woman's leagues.

We believe that every loyal woman alumnus will appreciate this fact and be ready to aid the movement and that the pastors who are interested in Pennsylvania College will be glad to encourage the forming of an organization which will stand for work at a point in the church where much work is, and always will be needed. W. A. Granville, Gettysburg, Pa.

Conservation of the Teeth

might well be made a political issue. Are the teeth not a national resource? The health of the nation depends upon the care of its teeth. Uncle Sam won't allow a enlistment in the Army or Navy until the teeth have been favorably passed up and, incidentally, Uncle Sam knows a good dentifrice.
